

ABBREVIATIONS USED IN THE TJAOM TOOLKIT

The purpose of this document is to provide users of the TJAOM Toolkit with a list of all abbreviations used on the webpage and in the interactive PDFs, video lecture and template for discharge letter.

Outcome measures

4mWT	4 metre walk test
10mWT	10 metre walk test
40mFPWT	40 metre Fast-paced Walk Test
6MWT	6 Minute Walk Test
30 sec CST	30 Second Chair Stand Test
BESTest	Balance Evaluation Systems Test
Brief-BESTest	Brief Balance Evaluation Systems Test
Mini-BESTest	Mini Balance Evaluation Systems Test
BBS	Berg Balance Scale
EQ-5D-5L	EuroQoL-5D-5L
FJS-12	Forgotten Joint Score-12
FSST or 4SST	Four Square Step Test
FRT	Functional Reach Test
HOOS	Hip disability and Osteoarthritis Outcome Score
HOOS-JR	Hip disability and Osteoarthritis Outcome Score-Joint Replacement
KOOS	Knee injury and Osteoarthritis Outcome Score
KOOS- JR	Knee injury and Osteoarthritis Outcome Score-Joint Replacement
LEFS	Lower Extremity Functional Scale
NPRS	Numeric Pain Rating Scale
OHS	Oxford Hip Score
OKS	Oxford Knee Score
PSFS	Patient Specific Functional Scale
SCT	Stair Climb Test
SLS	Single Leg Stance
ST	Step Test
TUG	Timed Up and Go
Pain VAS	Pain Visual Analogue Scale

General terms

PROM	Patient-reported outcome measure
PBT	Performance-based test
TKA	Total knee arthroplasty

ABBREVIATIONS USED IN THE TJAOM TOOLKIT

THA	Total hip arthroplasty
ICF	International Classification of Functioning
&	and
hr	hour
m	metre
m/sec	metres per second
M	minute
mins	minutes
wks	weeks
yrs	years

Measurement properties and statistical terms

CI	Confidence interval
ES	Effect size
ICC	Intraclass correlation coefficient
MCID	Minimal clinically important difference
MDC	Minimal detectable change
MCII	Minimal clinically important improvement
PASS	Patient-acceptable symptom state
SD	Standard deviation
SEM	Standard error of measurement
SRD	Smallest real difference
SRM	Standardized response mean
r	reliability coefficient
